Jacques & Linda Lamothe
1830 Rosemere CT.
Las Vegas, NV 89117

Jacques & Linda Lamothe

August 21, 2006

We are resident neighbors of the Lamothes in the gated community of Rosemere Estates and have been informed by the Lamothes that they would like to build an addition to their home which requires a variance. We have had discussion with them regarding their plans and the specifics of the variance. We would allow them to proceed with construction and have no objections to the variance.

City of Las Vegas

14 August 2006

Re: VAR 15081

From Stephen E. Trent
1690 S. Tenaya Way
Las Vegas, NV

I oppose this variance. The building limitations were established for the betterment of the neighborhood in general. Unless the restrictions are enforced, building heights and setbacks will get out of control; and, we will be living among towering buildings and houses with walls out to the streets. Approve this one and there will be lots more behind because a precedent will have been established.

Deed restrictions should apply to all and I request the Planning Commission enforce the current building restrictions by **denying this variance request.**

Sincerely,

Stephen E. Trent
